Do you agree or disagree with the following statement?

Childhood is the happiest time of a person's life.

Use specific reasons and examples to support your opinion.

You should write about **100 - 150** words.

I think that the childhood is the happiest time of a person's life. Because you haven't got any problems. They can not learn anything for school. Also children cannot study at school. All world is their friends. They can play when they want. Parents buy them sweets, chocolats and other tasty sweets. Children always spend time with parents. Children walk with family. Also, they believe in magic, Santa, unicorn and etc. When you are in the childhood time you can sleep when you want. Your health is very very good. You watch cartoon, your mom read fairyteals. Your fantasy is very developpe. And all is very good.
